## HomeSafe Earns Reaccreditation

HomeSafe is proud to announce it has been reaccredited for another four years by the Council on Accreditation (COA). This is a significant achievement for our staff and board. COA accreditation affirms that an organization meets the highest national standards of best practice, and establishes the organization's credibility as effective and professionally sound. In addition, it provides assurance to all of our stakeholders (clients, staff, board, donors and funders) that HomeSafe is delivering needed, high-quality services in our community, conducting its operations successfully, and managing its funds effectively.

The accreditation, which took place for four days in early May, involves an in-depth self-review of the organization against currently accepted best practice standards, an on-site visit by an evaluation team comprised of experts, and a subsequent review and decision by COA. It took staff about two months to compile the requested client files, staff files and financial information need for the accreditation. HomeSafe did not receive any out of compliance ratings in the fundamental practice standards, which is testimony to the staff's dedication to providing the highest service possible to our clients.

HomeSafe is one of more than 2,200 human service organizations worldwide accredited by COA.

## Pond Place News

We are excited that three of our Pond Place clients recently celebrated a graduation.

Melissa has received her Associate of Arts from Palm Beach State College and is our oldest client, having just turned 23. She has been in the foster care system since age 9. Melissa came to Pond Place just over a year ago, after spending two years at Vita Nova. She was scared entering the program and really being on her own for the first time, but after a few months, she says she built up her courage and now loves her independence. For her last two years of school, Melissa has applied to several Florida colleges. She plans to study early childhood education and be a teacher.

Mariah is a member of Forest Hill High School's class of 2018. She has only been a resident at Pond Place for two months, coming from a foster home and prior to that, residing at Nelle Smith Home for Girls. Mariah loves having an apartment all to herself and not having to share space with several other girls. She is thankful for the help and guidance from Mr. Kehan, the program's Independent Living Supervisor, who regularly checks in with clients to make sure they are doing what they need to do to succeed. Mariah will be attending Palm Beach State College.

Jessica graduated from Lake Worth High School. A few years ago, she was a client at our Libra Girls group home, but transferred to another program where she stayed until she was 18. In October, she moved to Pond Place, and was very scared and untrusting at first, but has blossomed in her "adult" freedom, and absolutely loves having her own apartment. She is thankful for the support she has received from Mr. Kehan, and from the organization Best Foot Forward – both of whom made sure she stayed in school and had the tools and resources she needed to graduate. Jessica loves fashion, sewing and doing hair, and plans to enroll in cosmetology at Palm Beach State College in the fall.
